

# Why you should choose NADC:

## REASON ONE

### ✓ Safety Record

NADC is dedicated to providing the safest workplace environment as possible. This means providing our personnel with the right training, equipment and support to make sure that safety is paramount on all of our work sites. This is accomplished by:

- Paying careful attention to every detail of our daily operations
- Making each day as safe as the last.
- Every individual in our organization is committed to safety.
- Satisfaction that comes from the confidence that our work is being done well and safely.
- Having one of the industries lowest EMRs

## REASON TWO

### ✓ Sustainable Demolition

NADC's approach to sustainable demolition includes a greater emphasis on how waste management and recycling can be achieved by best practice implementation of approaches for Materials Resource Efficiency (MRE) associated with demolition activities and with a decision making framework which promotes:

- Building reuse
- Deconstruction
- Product reclamation and reuse
- Recycling

Our protocol provides indices which allow targets to be set on the basis of area, tonnage, volume, value etc. Other features include:

- Site waste management plans: demonstrates how our protocol supports local, state and federal compliance
- Carbon benefits: describes how, through easily avoided haulage movements, these can be estimated easily
- Checklist to simplify implementation

## REASON THREE

### ✓ Cost Effective

Serving North America since 1984, we have successfully met our client's demand for safe, cost effective and dependable demolition services. This is achieved by:

- Commitment at all levels of a demolition project, from preparing for demolition to management to final completion of the project.
- NADC's ability to analyze, define and properly evaluate a project.
- Implementation of the most innovative techniques and methods, which equates in cost and time savings to our clients.

## REASON FOUR

### ✓ Reliable & Efficient

Our goal is to finish the job in the most efficient and economical manner, this can be done because:

- We commit ourselves to complete all projects within the timeline set with our clients.
- We use the best of technology and tools to ensure that all jobs are done quickly,
- Attention is given to details to ensure everything is done correctly.
- If your project has specific requirements we will make sure we have that equipment on hand to get the job done.
- A staff of skilled mechanics expertly maintains our fleet of equipment.
